Sentry Select

organization, specify organization):

The purpose of this filing is to adopt the following ISO designations.

CA-2012-BRLA1 - Revised Loss Costs CA-2012-RUMLC - Revised Loss Costs CA-2012-IALL1 - Increased Limits Factors

In addition, we are introducing a new rating factor. Our new Scorecard Factor was developed using generalized linear modeling and considers many risk characteristics that were previously contemplated in our schedule rating plan. The Scorecard Factor results in an overall rate increase on our book of business. We are decreasing our Auto Liability base loss costs and Auto Physical Damage base rates to offset some of the increase. The Auto Physical Damage deductible/stated value relativities between different cells in our rate grids are being revised to more accurately capture these relationships.

We are also introducing a new Renewal Rate Credit, removing our New Venture Factor and Policywriting minimum premium, and amending our definition of the Fleet classification. We are changing our Pollution rule to indicate that we are now charging 2% of basic limits Liability premium for the basic limits layer of Pollution coverage.

- * Adjusted to reflect all prior rate changes.
- ** Change in Company's premium level which will result from application of new rates.
